DS-CAM VIDEO CAMERAS

ADDITIONAL CAMERA SUPPORT

DIRECT X CAMERA SUPPORT
Free support for all DirectX compatible cameras. Video from this cameras will be software synced to analog and other sources with ~10ms accuracy.

HIGH SPEED VIDEO CAMERA
Extreme high-speed video cameras from Photron are directly supported and perfectly synchronized to other data.

THERMOVISION CAMERAS
Supports OPTRIS infrared thermal cameras.

VIDEO POST SYNC
Any video file from additional cameras can be synchronized in analysis mode and merged with Dewesoft data files.

GIGE VISION V2 SUPPORT
JPEG compression and support for cameras using GigE v2 standard.

High-speed and rugged video cameras with full synchronization capability and real-time picture compression.

HIGH-SPEED VIDEO
DS-CAM cameras offer high frame rates with continuous storage. Lowering the resolution you can achieve even higher speeds.

IP67 LEVEL PROTECTION
Some camera models are available in IP67 version. Fully waterproof, dustproof and ready for applications in harsh environments.

REAL-TIME COMPRESSION
Dewesoft offers real-time or offline compression and video streaming directly to computer's hard drive.

SYNCHRONIZED TO ANALOG
Cameras offer hardware synchronization link to all analog data acquisition instruments. Video and analog data is synchronized frame by frame.
